

Case Study

VHI

Duration: 2018-2019

BUSHELL
INTERIORS

Bushell Interiors worked along side the client, architect and design team to supply lighting, meeting room furniture and ancillary furniture. We were involved in the design stage along with architects and project managers to create a functional workspace for the user. We provided samples and upon their approval, processed the order through to delivery, where we liaised with main contractor on site, and provided an aftersales service for the client.

Client:	VHI
