

Shine / Chair  
Design / Arik Levy

Test  
EN581-1 / EN581-2

Made entirely of aluminium, Shine collection by Arik Levy offers modern essential lines, mainly intended for contexts in the Residential and Contract Hospitality sectors. The combination of truly creative design and aluminium conveys a sensation of both lightness and essential comfort. Armchairs, chairs and lounge chairs are all stackable and have teak armrests. The tables have a teak or HPL (white) top. The Shine collection also includes stools and high tables for furnishing dining and relaxation areas. In addition to the furniture already presented at the 2014 fair, a sun lounger, a daybed, a new set of fixed and extensible tables, and a two-seater sofa are included.

### Description

Code: **247**  
Typology: **Chairs**  
Collection: **Shine**

Stackable: 4  
Static Load: 200 Kg  
Test: EN581-1 / EN581-2  
Cushion Material: Acrylic fabric  
Seat Height: 45 cm

### Technical Info

Width: **50 cm**  
Depth: **55 cm**  
Height: **78 cm**  
Weight: **4.70 Kg**  
Static Load: **200 Kg**

### Packaging

Packages: **1**  
Pieces for pack: **4**  
Dimensions: **83x55x99 cm**  
Volume: **0.452 mc**

Polyethylene bag and cardboard box

## Materials

### **Aluminium**

Aluminium alloys, particularly suitable for cold-working and for die-casting, appropriately treated to withstand the elements and powder coated.

**Maintenance:** To keep the product in good condition for a long time, we recommend cleaning it regularly; more often in very damp locations with a marine climate. It is recommended to clean the surfaces using a soft cloth with water or mild detergents. Prolonged and continuous exposure to intense UV radiation or very low temperatures can affect the initial characteristics of the coloured coating, which is made from polyester. We recommend cleaning and storing the products in sheltered places during prolonged periods of non-use and during the winter.

## Cushion Material

### **Acrylic fabric**

The 100% acrylic fabrics combined with a polyurethane internal coating. This step makes it water-repellent, highly resistant to UV rays for excellent outdoor performance.

**Maintenance:** To keep the product in good condition for a long time, we recommend cleaning it regularly; more often in very damp locations with a marine climate. It is recommended to clean the surfaces using a soft cloth with water or mild detergents. Prolonged and continuous exposure to intense UV radiation or very low temperatures can affect the initial characteristics of the coloured coating, which is made from polyester. We recommend cleaning and storing the products in sheltered places during prolonged periods of non-use and during the winter. Evitare il contatto prolungato con sostanze grasse e/o coloranti che potrebbero venire assorbite dal materiale di rivestimento e dare luogo a macchie permanenti, oltre che deteriorare la struttura del filato. In caso di utilizzo vicino al mare o piscine si consiglia un lavaggio periodico. Lavaggi frequenti: seguire le istruzioni specifiche per ogni materiale riportate sull'apposita etichetta. Utilizzare acqua e detersivi liquidi non abrasivi con PH neutro e incolore. Eventualmente lasciare agire il detersivo alcuni minuti. Sciacquare abbondantemente con acqua a temperatura non superiore a 30°C. Nel caso di utilizzo di dispositivi a pressione, tenere la punta del diffusore ad una distanza di almeno 60/70 cm dalla superficie del manufatto. Se necessario ripetere l'operazione. Non utilizzare spugne abrasive per smacchiare e non trattare con candeggina e cloro.
