LABYRINTH BOOK TOWER

WWW.BCILIBRARIES.COM

Presenting your books means portraying your library

Make a stage for your books. Show what is important for you! Most of the media in a library are fairly small. Noticeable furniture creates a perfect frame and attracts the desired attention. Make your users enthusiasts with these smart design ideas. Your readers expect books and shelves. Surprise them with our presentation towers. Today's library is much more than shelf boards and long shelves. Create an inviting atmosphere through friendly furniture. This will support the number of visitors as well as the working climate.

Unit comes with steerable wheels, 2 with stops

Order-No **B 7485 003** with 3 height units
B 7485 005 with 5 height units

Usually books are placed in shelves. But "normal" is not always desired and therefore we invented a special eye-catcher for your novels, paperbacks and mangas in a tower-shape concept: The design of this brand-new presentation furniture is thought outside the box, but quite obvious and natural. Boards and niches are arranged in a logical and exciting relation and make the tower a perfect example for the often quoted design theory: Form follows function!

Surfaces

from solid wood veneer and plastic

Wooden surfaces are either directly plastic-coated or covered with an HPL laminated plastic, depending on their application. Differences in colour underline the characteristics of solid wood surfaces and cannot be avoided. Solid wood changes its colours under the influence of light. Table and work surfaces with solid wood veneer have only limited abrasion resistance. We recommend our highly resistant plastic decors for these types of surfaces. We use environmental-friendly lacquers for our solid wood surfaces.

DESIGN OPTIONS

Other surfaces and veneers upon request.
