

Case Study

Charleston Town Homes

Jamie Moran Homes partnered with Bushell Interiors to furnish the Kitchens and Wardrobes for a charming development of four townhouses.

Focusing on both aesthetic appeal and practicality, our collaboration resulted in exquisite kitchen furniture featuring elegant Italian handleless doors in a sophisticated combination of matt-lacquer Black and Dark Wood.

To enhance functionality, we complemented the kitchens with high-quality mineral countertops and top-notch appliances.

In line with the same sleek handleless design, the wardrobes had LED lighting integrated to add a touch of modernity and convenience to the overall design.
