

Ficus / Base Module Design / Chiaramonte / Marin

Ficus is inspired by the characteristics of the Cactus, a strong plant capable of resisting adversity by regenerating itself in different forms. This majestic steel structure is composed of two modules height adjustable, to which various decorative accessories are added, such as leaves and fruits.

Materials

Steel

Iron and carbon alloy, with carbon content below 2%, treated to withstand the elements with the unique EMU-Coat anti-corrosio process.

Maintenance: To keep the product in good condition for a long time, we recommend storing it indoors and in a dry place during the winter to prevent condensate from forming. Before the winter and on a quarterly basis, if the products are kept near the sea, it is recommended to clean the metal surfaces with a soft cloth using water or detergent and protect them with Vaseline oil or car wax.
