

WOODSTOCK

BY HANS THYGE & CO.

TABLES

Combining a solid oak column with a fixed cast-aluminium leg, Woodstock blends the distinctions between materials, connecting a refined industrial aesthetic with natural rawness.

KEY FEATURES

Wide choice of materials
Master craftsmanship
High functionality

WOODSTOCK MEETING TABLE

Woodstock is an intelligent table series by Hans Thyge & Co. Produced specifically for the contract market, Woodstock presents a softer-feel meeting table that answers the demands of today's workplace. The series is designed to provide multi-purpose, functional surfaces while still providing the durability and strength expected from a workplace table. The tables can be technology integrated with power and data modules.
