

# Romy

A spacious and elegant lounge chair range designed for optimal comfort with an air of contemporary grandeur. **Romy** offers a refined approach to relaxation in interior spaces, combining sophisticated aesthetics with luxurious comfort. With two distinct height options—mid or high back— **Romy** adapts to a plethora of preferences and aesthetics.

High back **Romy** features a prominent wing design, creating a dramatic silhouette and enhancing acoustics. The perfect focal point in a space, the high back is ideal for private conversations or a quiet retreat from the hustle and bustle. Mid back **Romy** offers a more open presence for enhanced sight lines, perfect for creating inviting, social areas or collaborative workspaces.

**Romy** ensures seamless integration into any interior scheme, with three versatile leg styles to choose from.

Shell in moulded cold cured polyurethane foam over steel frame. Internal sprung seat for added comfort.

# Warranty Information

---

## 5 YEAR – NORMAL FAIR WEAR & TEAR

This includes the structure and any foam/padding materials.  
Fabrics are covered by fabric manufacturers' warranties, usually 5 years, dependant on fabric choice.

Please refer to full **sixteen3** Warranty information document for more details.  
**sixteen3** ltd reserve the right to update product data information without prior notice.

# Standards

---

## FLAMABILITY

The foams & fillings of this product meet BS EN 5852: Part 2, in accordance with The Furniture and Furnishings (Fire) (Safety) Regulations 1988.

## CONSTRUCTION

Designed to meet & exceed BS EN 16139: 2013 – Strength, Durability and Safety Requirements for non-domestic seating.

# Cleaning & Maintenance

---

## GENERAL MAINTENANCE

- Vacuum upholstery regularly to remove dust and grit.
- Most hard surfaces can be cleaned with a soft cloth, dampened with a small amount of water and buffed dry.
- Clean spills and stains quickly to prevent them setting in (see specific fabric care instructions below).
- If being used in a spill/stain prone area specify an appropriate finish with stain-repellent properties.
- Bases should be checked and tightened periodically to reduce wear.

**Refer to fabric manufacturers own guidelines for specific information.**

## NATURAL FABRICS

In addition to regular vacuuming, wool and other natural fibres can usually be cleaned using appropriate upholstery shampoo. For a deeper clean it is best that wool be dry cleaned, as over-wetting can cause shrinkage and appearance change. Never apply bleach, ammonia, alkali or strong acids to wool upholstery.

## SYNTHETIC FABRICS

Vacuuming is the best regular maintenance followed by speed of action to remove spills and stains rapidly as soon as they occur. Most synthetic fabrics can be wiped down with a water soaked damp cloth without fear of damaging fibre or removing colour. Stubborn stains can be removed with a quality upholstery shampoo.

## LEATHER

Leather should be regularly dusted with a soft cloth and vacuumed with a soft brush extension. Most types of aniline can also be treated with specialist products to help preserve colour/finish etc. As leather is a natural material, discrepancies in surface texture and 'puddling' in seat areas is to be expected.

## POWDER COATED

Clean surfaces regularly with a slightly damp cloth and a mild solution of soapy water. Buff dry with a soft duster.

## WOOD FINISHES

Clean surfaces regularly with a slightly damp cloth and buff dry with a soft duster. The finish on all wood and laminate surfaces is designed to withstand moderate heat and some spillages, but all spillages should be wiped off with a damp cloth straight away. Do not drag any objects across any table tops. Certain wood finishes will naturally change in appearance with age. We cannot guarantee an exact match of any timber products.
