

Monsal

Inspired by one of our favorite footpaths through the rolling hills of the Peak District, Monsal is a compact and size-adjustable bench seating range. Connect the benches end-to-end to create long runs of banquette or backless bench seating, reminiscent of the train carriages that once steamed along the railway, now the Monsal Trail footpath.

With a range of design options available, this simple bench system can adapt to a range of interior purposes and styles. Plinth, leg and castor options diversify Monsals functionality, while custom sizing provides a sleek built-in aesthetic.

CUSTOM SIZING

Benches can be modified to any width, up to **600mm** wide or **1200mm** wide. Choose the closest size that exceeds your requirements out of the width options above.

A one-off charge applies per size modification.
For custom width Wall Panels there is no addition charge.

For examples of pricing see next page.

LINKING

Linking mechanisms will only be fitted to the units subject to layout plans being provided. Alternatively, mechanisms will be free-issued.

To give a better understanding on how to price custom-sized Monsal benches we have compiled the below examples:

Straight Run

To create a bench running the length of a 3450mm wall the following split can be created:

COST BREAKDOWN

3no. 1150mm Benches:
3x MON-120-B + 1x Customisation charge

Booth Layout

To create custom-sized booth setups between stud-wall partitions or in alcoves:

COST BREAKDOWN

4no. 900mm Benches: 4x MON-120-B
+ 1x Customisation charge

Warranty Information

5 YEAR - NORMAL FAIR WEAR & TEAR

This includes the structure and any foam/padding materials. Fabrics are covered by fabric manufacturers' warranties, usually 5 years, dependant on fabric choice.

Please refer to full **sixteen3** Warranty information document for more details. **sixteen3** ltd reserve the right to update product data information without prior notice.

Standards

FLAMABILITY

The foams & fillings of this product meet BS EN 5852: Part 2, in accordance with The Furniture and Furnishings (Fire) (Safety) Regulations 1988.

CONSTRUCTION

Designed to meet & exceed BS EN 16139: 2013 - Strength, Durability and Safety Requirements for non-domestic seating.

Cleaning & Maintenance

GENERAL MAINTENANCE

- Vacuum upholstery regularly to remove dust and grit.
- Most hard surfaces can be cleaned with a soft cloth, dampened with a small amount of water and buffed dry.
- Clean spills and stains quickly to prevent them setting in (see specific fabric care instructions below).
- If being used in a spill/stain prone area specify an appropriate finish with stain-repellent properties.

Refer to fabric manufacturers own guidelines for specific information.

NATURAL FABRICS

In addition to regular vacuuming, wool and other natural fibres can usually be cleaned using appropriate upholstery shampoo. For a deeper clean it is best that wool be dry cleaned, as over-wetting can cause shrinkage and appearance change. Never apply bleach, ammonia, alkali or strong acids to wool upholstery.

SYNTHETIC FABRICS

Vacuuming is the best regular maintenance followed by speed of action to remove spills and stains rapidly as soon as they occur. Most synthetic fabrics can be wiped down with a water soaked damp cloth without fear of damaging fibre or removing colour. Stubborn stains can be removed with a quality upholstery shampoo.

LEATHER

Leather should be regularly dusted with a soft cloth and vacuumed with a soft brush extension. Most types of aniline can also be treated with specialist products to help preserve colour/finish etc. As leather is a natural material, discrepancies in surface texture and 'puddling' in seat areas is to be expected.

POWDER COATED & PAINTED

Clean surfaces regularly with a slightly damp cloth and a mild solution of soapy water. Buff dry with a soft duster.
