Deville Collection

Design by Julien Renault

Julien Renault's Deville Collection offers a contemporary take on the archetypal bistro set, reinterpreting a classic typology that naturally blends the charm of familiarity with industrial strength. Inspired by furniture from a favourite café in Brussels, Renault translates its spirit through generous proportions, softly curved frames, and lightweight aluminium construction. The result is a collection of outdoor tables and chairs that feels both practical and quietly nostalgic, built to last while remaining easy to move and arrange. By reimagining everyday bistro designs, Renault creates a range of timeless stackable chairs and tilt-top tables, bringing flexibility to a wide variety of outdoor environments.

Crate Collection

Design by Gerrit Rietveld, relaunched by Rietveld Originals x HAY

The history of the original Crate Collection dates back to 1934, when the renowned Dutch architect and designer wanted to create modern and functional furniture from surplus wooden crates.

Today's Crate Collection shares the same aesthetic strength and precisely balanced proportions, with its simplicity and spatial design mirroring the designer's harmonious architectural sense. Comprising a variety of outdoor tables and seating solutions, the collection's solid pine construction with water-based coating makes it suitable for outdoor environments, from cafés and public spaces to private or shared gardens.

Weekday Collection

Design by Hannes & Fritz

Hannes & Fritz's Weekday Collection came about after a lack of seating at a dinner party prompted the designer duo to build a primitive solution, which later evolved into a collection of outdoor tables and benches.

Reminiscent of the classic picnic bench and table, Weekday offers the same sense of familiarity and invitation to shared eating experiences. Solid pine planks reinforce the strength of character and welcoming expression, while giving the furniture greater robustness and durability. Weekday's universal quality makes it ideal for a wide range of outdoor settings, from cafés and public spaces to private or shared gardens.

Hee Collection

Design by Hee Welling

The philosophy behind the Hee Series was to take an archetypal chair and perfect it down to the last detail while cutting the essentials to the bone. The goal was to create a contemporary chair to fit into a wide range of contexts. The attempt was a great success, resulting in the pragmatic and easily decoded Hee series.

Like a line drawing, it wraps metres of metal wire into neat, straight lines in three versions: bar stool, lounge chair and dining chair. Stackable and weatherproof, the wide assortment of colours and designs make Hee suitable for numerous indoor and outdoor contexts, such as bars and restaurants, as well as public spaces and home environments.

Terrazzo Table

Design by Daniel Enoksson

Swedish designer Daniel Enoksson's Terrazzo Table features a round- or square-shaped table top crafted in highly functional electro-galvanized steel and powder coated to make it extra resilient. For the designer, terrazzo was an obvious choice to use as the base, partly due to its excellent durable properties, but more importantly, it has such a unique and distinctive finish that makes an effective contrast against the stark simplicity of the table top.

Designed to withstand the outdoor environment, the table is suitable for all kinds of indoor and outdoor use.
